

Specialist leader of education

Profile

Minette Jaarsma: SLE Foundation Stage and Phonics

I have more than ten years' teaching experience, across foundation stage, key stage 1 and key stage 2. My experience as a middle manager has enabled me to meet the requirements and develop the expertise necessary to carry out all the duties required of an effective leader. I have a successful track record of working effectively within my school and in partnership with a range of leaders in other schools. Various bodies have graded my teaching and management outstanding and I have a thorough understanding of the most effective teaching, learning and behaviour management strategies. I am committed to outreach work and believe I have the skills and knowledge required to support colleagues in making a positive impact on pupils.
